

Home learning – Monday May 11th

**PE with Joe Wicks 9am – 9:30am**

Or try **super\_pirates for free PE** – look on their Facebook page under videos, **live at 9am** and also on You Tube

Or for **something different** try [www.jumpstartjonny.co.uk](http://www.jumpstartjonny.co.uk)

Or [www.gonoodle.com](http://www.gonoodle.com)

**9.30 – 10.00 Reading**

Do you know what VE day is? VE day was on Friday 8<sup>th</sup> May.

Do some research about VE day (power point attached) and create some questions for someone in your family to answer.

**10.00-10.45 Maths**

**Time: Months and years**

When is your birthday?

What other significant dates are there during the year?

Are they the same every year?

Which month comes before March?

Which month comes after August?

Which month changes when there is a leap year?

Are there any other months that change length?

Is this year a leap year?

When will the next one be?

When was the last one?

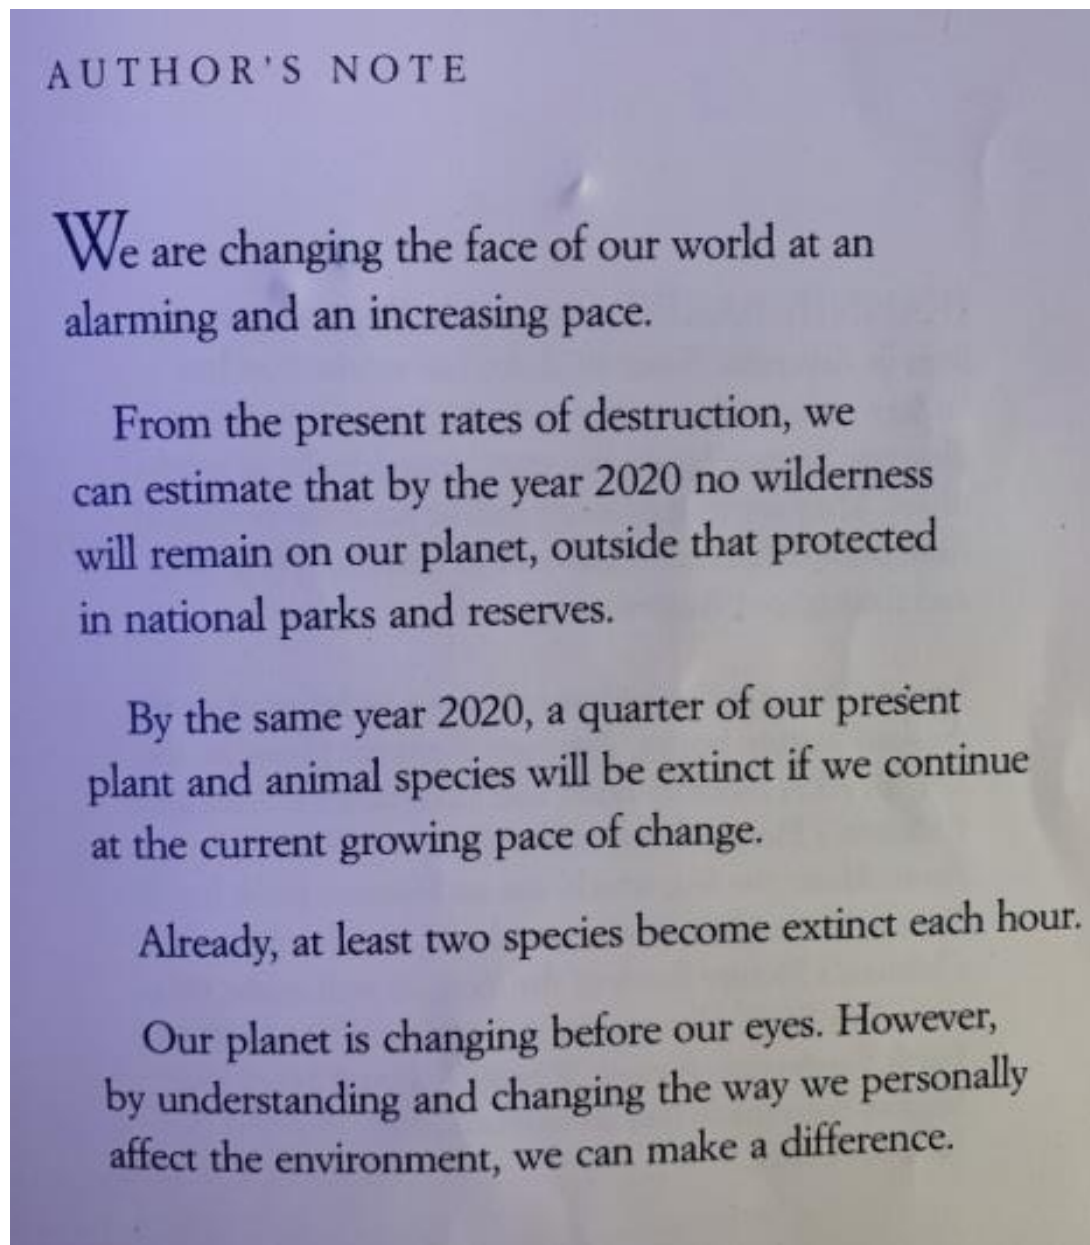

Children should spend time exploring a real calendar. They sort the months into groups, by the number of days in each month, for both a year and a leap year. Children can use the groups to compare what is the same and what is different?

Can you create your own calendar and add in important dates?

Home learning – Monday May 11th

**10.45 – 11:30 Written task**

In our new book 'Window' by Jeannie Baker, the final page has predictions for the future. The book was published in 1991 and the author made predictions for 2020 – read her predictions and discuss them with someone at home. Were they correct? Were they realistic?

Now you are going to write your own paragraph with your predictions for 2050.
