11.30 – 12:30 Foundation subject task – RE

Often, people can argue about different religions, saying this religion is better than that religion etc. This is really sad as nobody likes arguments.

The most important thing is that we don't put people in separate groups or see them as different. Instead, we see that we are all the same, WE ARE ALL HUMAN and we are allowed to believe in whatever we want. 😊

Today's task is to draw the **earth** in the middle of your paper. Then draw **people** from all different religions around the outside **holding hands**. Then write somewhere on your paper...

“No matter what we believe, we are all humans and we are all in this together.”

Have a look at this super website for more information on different religions around the world!

Have fun!
